SOFTWARE COMPARISON

Traditional Software vs ATS Cloud Software

Modern, flexible and accessible software built for today's businesses.

Traditional Software

Installed on a single computer or local server. Limited access and flexibility.

- Only on office computer
- Limited remote access
- Difficult to share data

Feature	Traditional Software Desktop / Local	ATS Cloud Software Web-Based (Cloud)
Access Anytime, Anywhere	Only on office computer	Yes, from anywhere
Access on Mobile, Tablet & Laptop	Usually not available	Works on mobile, tablet & laptop
Multiple Users	Limited	Unlimited / as per plan
Live Data & Sync	Manual (USB / local network)	Real-time & automatic
Backup & Security	Manual setup	Automatic cloud backup
Updates & Maintenance	Manual, extra cost	Automatic updates
Scalability	Difficult to upgrade	Easily scalable
Data Sharing (Branches)	Complex and costly	Easy and instant
Internet Requirement	Not required (local only)	Required (with offline options*)

ATS Cloud Software

Access your business on any device, from anywhere, with secure cloud technology.

- Access anytime, anywhere
- Works on mobile, tablet & laptop
- Real-time data & reports
- Secure cloud backup
- Easy to scale and grow

Work From Anywhere
Access your software anytime, anywhere.

All Devices Supported
Mobile, tablet and laptop.

Secure & Reliable
Your data is safe in the cloud.

Ready for Growth
Easily add new features and users.
